N.C. ENERGY OFFICE ADDS MORE CLASSES TO HELP AGENCIES SEEKING FEDERAL ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANTS

One-Day Class Will Help Potential Applicants For Technical Assistance

RALEIGH – The North Carolina Energy Office has added additional sessions to the series of one-day classes to help potential applications for Federal Recovery Act funds under the Energy Efficiency and Conservation Block Grant program. The classes will assist a variety of agencies, including state and local government agencies, UNC system institutions, community colleges and public schools. Learn about the plans, forms, reporting and other requirements for those who participate in the federal grant program.

There is no fee or advance registration required for participation in the classes. While the training is not mandatory, it is strongly encouraged. The following is the **full** schedule of classes to be held and their locations. The added classes are in *italic type*. Classes start at **9 a.m. and continue until 4 p.m.**

- Tuesday, Dec. 8:** **Advanced Energy;** N.C. State University; NCSU Centennial Campus, Research Building 4, 909 Capability Drive, Raleigh; Contact -- C.C. Maurer (919) 857-9000
Eastern Carolina Council of Government; 233 Middle St., Omarks Building, New Bern; Contact -- Rosa Sherk (919) 624-3050

Thursday, Dec. 17

James Sprunt Community College, Boyette Building Room 113; 133 James Sprunt Drive; Kenansville; Contact – Herb Eckerlin (919) 515-5227

The Energy Office has designated 37 firms to provide technical assistance to government agencies. These agencies can apply to the N.C. Energy Office to have one of the designated firms provide assistance with creating a strategic energy plan, responding to the project request for proposals (RFP), performing preliminary and detailed energy surveys and project measurement and verification. The fee for this Technical Service will be paid by the SEO through ARRA funding. Governmental entities are free to select any other firm not on the list, however they will be responsible for any expense associated with their selection.

Government entities must submit a strategic energy plan with their RFP response to be considered for an award. Attached is the application that must be completed to access the technical assistance. A list of the firms designated to provide technical assistance, and the areas they have been approved to provide service, is also attached.
