**N.C. ENERGY OFFICE DESIGNATES FIRMS FOR TECHNICAL ASSISTANCE TO HELP
AGENCIES DEVELOP ENERGY PLANS TO ACCESS U.S. RECOVERY FUNDS**
Applications Now Being Accepted For Agencies Seeking Assistance

RALEIGH – The North Carolina Energy Office has designated 37 firms to provide technical assistance to state agencies, UNC system institutions, community colleges, public schools and local governments. These government entities can apply to the N.C. Energy Office to have one of the designated firms provide assistance with creating a strategic energy plan, responding to the project request for proposals (RFP), performing preliminary and detailed energy surveys and project measurement and verification. The fee for this Technical Service will be paid by the SEO through ARRA funding. Governmental entities are free to select any other firm not on the list, however they will be responsible for any expense associated with their selection.

Government entities must submit a strategic energy plan with their RFP response to be considered for an award. Attached is the application that must be completed to access the technical assistance. A list of the firms designated to provide technical assistance, and the areas they have been approved to provide service, is also attached.
